 - **Others:** HTML5, CSS3, RESTfull APIs, GraphQL, Git, MySql, MongoDB, Tailwind, Shadcn, Expo, Firebase, Supabase,
-

WORK EXPERIENCE

Software Developer , Caremaster Global – Sydney, NSW (Remote) May 2023 - Nov 2023

- Developed mobile application using React, React Native, and TypeScript, delivering high-quality code within project timelines
- Created reusable, pixel-perfect React Native components to enhance development speed and code maintainability
- Collaborated with team members to design and implement solutions, maintaining strong communication throughout
- Managed end-to-end mobile app releases for both App Store and Play Store, ensuring platform compliance
- Implemented Agile methodologies for efficient project delivery and feature management

Senior Software Engineer , Rootcode Labs – Sri Lanka Jan 2022 - Feb 2023

- Led full-stack development using React, React Native, TypeScript, Next.js, Node.js, Express.js, Java, and Spring Boot, delivering high-quality code within timelines
- Created reusable React and React Native components to enhance development efficiency and maintainability
- Successfully led a mobile development team in building and launching a production app within 3 months
- Developed RESTful APIs using Spring Boot, ensuring scalable and robust backend architecture
- Managed end-to-end mobile app releases for both App Store and Play Store, ensuring platform compliance
- Implemented Agile methodologies for efficient project delivery and feature management

Software Engineer , Hatchyard – Sri Lanka Nov 2020 - Jan 2022

- Developed mobile applications using React Native and TypeScript, delivering high-quality code within timelines
- Created reusable React Native components to enhance development efficiency and maintainability
- Implemented key features including bill payment flow, KYC process, multilingual support, and notification systems
- Worked with development and testing teams to design robust solutions meeting client requirements
- Analyzed and implemented technical solutions based on customer requirements
- Managed end-to-end mobile app releases for both App Store and Play Store, ensuring platform compliance
- Developed scalable and maintainable code, ensuring long-term software stability

Software Engineer , Virtusa – Sri Lanka Aug 2018 - Nov 2020

- Worked on the revamping of an old mobile application and web application using React and React Native, assisting in the creation of intuitive UI components and integration with existing REST APIs.
 - Worked on development of RESTful APIs using Java and Spring Boot.
 - Engaged in Agile practices to facilitate efficient project development and delivery, contributing as a member of the development team to meet project timelines and stakeholder expectations.
-

PERSONAL PROJECTS

Dezainer | dezainer.app Oct 2024 - Present

Developed and launched an AI-powered SaaS platform that helps creators generate and edit social media designs automatically. Built complete product from ideation to successful MVP launch. dezainer.app

Technologies: TypeScript, React, NextJS, nodeJs, Google Gemini, Replicate, clerk, stripe, postgressql, firebase, vercel

EDUCATION

B.Sc (Hons) in Information Technology Apr 2014 - Aug 2018

University Of Moratuwa - Sri Lanka
